Here are just a few reasons to join us at this year's Forum in May:

- **General Sessions** — Don't miss the opening session to this year's event, where all the progress of our storied past meets the vision for an exciting future. Listen to Postmaster General Jack Potter share how new innovations are shaping the postal landscape and promising new efficiencies for the entire mail industry. On Tuesday, Patrick Donahoe, Deputy Postmaster General and Chief Operating Officer, will share the latest information on the Flats Sequencing System and Intelligent Mail® barcode, and how they are helping to move mail more efficiently and provide visibility into the production, distribution and delivery of mail.
- **Symposiums** — Survey this year's selection of symposiums and get a glimpse of what's ahead as presented by some of our industry's top professionals and pioneers. This year NPF hosts three different symposiums on topics critical to your business: Small Business Symposium—The Global Marketplace, Intelligent Mail Symposium and Packages Symposium.
- **More Than 140+ Workshops!** The 2009 Forum features over 140 workshops grouped into 15 professional certificate programs.
- **Network! Network! Network!** Enjoy luncheons, peer-to-peer roundtables, evening receptions and Wednesday's spectacular Closing Gala at the Smithsonian National Museum of American History.
