

Save time and improve productivity on pre-sorted bulk mailing

Priority Mail® Open and Distribute™ (PMOD) and Express Mail® Open and Distribute™ (EMOD) from the U.S. Postal Service® expedite the transportation of hundreds or thousands of presorted letters, postcards, or small packages by using Priority Mail or Express Mail to quickly and affordably send the mailings to a Destination Delivery Unit for processing.

Endicia's software* guides users quickly and easily through the pre-sorting process. Not only can address lists be validated online and personalized postage included as needed, but critical PMOD-required postage forms are automatically pre-filled.

Endicia software works with PC or Mac and supports many sizes and types of labels, envelopes and postcards, allowing users to produce customized direct mail orders, while staying in compliance with all postal regulations.

Using PMOD/EMOD is easy!

- Place addressed postage-paid and presorted mail pieces in PMOD or EMOD approved containers.
- Use Endicia software to print the special PMOD or EMOD shipping label with postage and service barcodes.
- Deliver the PMOD or EMOD containers to your Bulk Mail Entry Unit (BMEU) with the standard paperwork (e.g. postage statement).

U.S. Postal Service takes care of the rest!

- USPS ships the PMOD/EMOD containers with the Endicia labels to the appropriate destination mail processing facility at Priority or Express Mail speed.
- USPS opens the containers and distributes the mail pieces to local recipients.
- PMOD/EMOD feature available with select Endicia software plans. Contact your local Endicia sales representative for more information.

* PMOD/EMOD feature available with select Endicia software plans. Contact your local Endicia sales representative for more information.

About Endicia®

Endicia is the leading provider of innovative and intuitive shipping technologies and services. We deliver value by creating breakthrough shipping solutions that help global businesses, small and big, reach their customers.

Our consultative style means that whether you are running an eCommerce business, an expansive warehouse, or a business out of your home,

Endicia can help you run your operations more smoothly and function more successfully.

Endicia also offers seamless access to USPS® shipping services through our integration with more than 200 ecommerce partner solutions.

Endicia has printed over \$10B in postage and is a trusted partner of the U.S. Postal Service®.
